SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Preparation of Financial Statements:

The financial statements are prepared under the historical cost convention on the accrual basis, in accordance with the Indian Generally Accepted Accounting Principles (“GAAP”) and mandatory accounting standards as specified in the Companies (Accounting Standard) Rules, 2006, the provisions of the Companies Act, 1956. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Management evaluates all recently issued or revised accounting standards on an ongoing basis.

B. Use of Estimates:

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets, liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Difference between the actual result and estimates are recognized in the period in which the results are known / materialized.

C. Fixed Assets and Capital Work-in-progress:

- i) The gross block of fixed assets is stated at cost of acquisition or construction, including any cost attributable to bringing the assets to their working condition for their intended use.
- ii) All Project related expenditure viz. Interest on loans, Legal/Professional charges, Shared Manpower cost etc incurred prior to the date of commercial operation are shown under Capital Work-in-Progress. These expenses are net of recoveries and income (net of tax) from surplus funds arising out of project specific borrowings.

D. Depreciation:

Depreciation is provided on a pro-rata basis on Straight Line Method at rates specified in Schedule XIV to the Companies Act, 1956. Except for the Assets individually costing less than Rs.5,000/- is depreciated fully in the year of acquisition.

E. Borrowing cost:

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset are capitalized as part of the cost of that asset till the date of capitalization of qualifying asset. Other borrowing costs are recognized as expenses in the period in which they are incurred.

F. Investments:

- i) Long term Investments are stated at cost. Provision for diminution in value of long term investments is made only if such a decline is other than temporary in the opinion of the management.
- ii) Current Investments are stated at cost or market value whichever is lower.

G. Earnings per share:

The basic earnings per share are computed by dividing the net profit after tax for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings per share, if any are computed using the weighted average number of equity shares and dilutive potential equity share outstanding during the period except when the results would be anti-dilutive.

H. Taxes on Income:

Tax expense comprises of current and deferred tax. Current tax is determined based on the amount of tax payable in respect of taxable income for the year in accordance with the applicable laws. Deferred tax is recognised on timing differences, being the difference between the taxable income and the accounting income that originate in one year and are capable of reversal in one or more subsequent years.

Deferred tax assets and liabilities are computed on the timing differences applying the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

I. Contingent Liabilities:

Contingent liabilities, if any, are disclosed by way of Notes on accounts. Provision is made in the Accounts in respect of those contingencies which are likely to materialize into liabilities after the year end, till the approval of accounts by the Board of Directors and which have material effect on the position stated in Balance sheet.
